mandel for peeling

Mandel Foaming Wash

Facial Foam Cleanser Treatment containing Mandelic Acid, Purifying Agents and Antioxidants. It's a delicate yet deeply cleansing which does not alter the hydrolipidic film of the skin, whilst is effective in removing dirt and excess sebum.

MANDEL FOAMING WASH is a light-weight and PH balanced formula which contains a powerful complex of ingredients that effectively remove residual make-up, impurities and pollutants, leaving the skin soft, fresh, smooth and radiant. It provides intense hydration and respects the skin's physiological balance. pH = 6

Indications:

It is ideal for all skin types, especially for those thickened, sensitive and hyperpigmented. It prepares the skin before application of other treatments, while increasing the skin's level of response.

Directions:

Apply twice daily (morning and evening) or as directed by physician.

Mandel White Cream

A High-Effective and Intensive Cream for the bleaching of hyperpigmented skin conditions of melanic origin (such as melasma, cloasma, sun spots, dark spots and post pregnancy pigmentation) and other unwanted pigmentation conditions, and for preventing new discolorations from forming.

MANDEL WHITE CREAM combines active bleaching ingredients to help reduce the appearance of existing pigmentation and discourage new spots from forming. It is enriched with Antioxidant and Moisturizing agents, AHA's and Sun filters.

Thanks to its high-strength bleaching property, this formula could be used as home maintenance treatment after or before professional treatments, or as adjuvant to other skin bleaching treatments.

Indications:

Suitable for all skin types.

Directions:

Apply to cleansed skin morning and evening, or as directed by physician.

Mandel Barcode System

Intensive and specific dermocosmetic Treatment for upper lip lines (vertical lines above upper lips, known as BARCODE).

The System is formulated to reduce the appearance of vertical lines and wrinkles by increasing cell turnover, stimulating collagen synthesis and elastin and increasing the skin elasticity.

Full system includes:

- **MICRO-EXFOLIATING SCRUB (PHASE 1):** prepares the skin to the penetration of active substances content in the PHASE 2
- **SMOOTHING GEL with MANDELIC ACID (PHASE 2):** has stimulating, smoothing and lightening properties, and stimulates cell turnover.
- **SOOTHING and CALMING RECOVERY CREAM (PHASE 3):** has calming, soothing and sunscreen properties, and stimulates epidermal renewal by replenishing optimal hydration level.

Indications:

It is specifically studied to reduce and counteract the upper lip lines caused by smooking, facial expression and natural aging process. Suitable for all skin types.

Directions:

Apply the 3 Steps as follow:

- **PHASE 1:** Apply in the evening with a gentle massage and rinse off.
- **PHASE 2:** Apply in the evening and leave on the skin overnight.
- **PHASE 3:** Apply to cleansed skin morning.
